## STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total stocks of leaf tobacco lower than a year ago.

Leaf tobacco stocks in the United States and Puerto Rico totaled 4,837 million pounds as of April 1, 1970. This is a decline of 168 million pounds compared with the previous April 1 (5,005 million). The 1969 crop was in stocks by April 1, with the exception of Maryland and some cigar tobacco. About 220 million pounds were marketed during the January-March quarter.

Flue-cured and Maryland stocks led the decline. Only two domestic types recorded any increase from last year and many dark and cigar tobaccos reached record lows for April 1. Imported cigar and smoking tobacco stocks were higher.

Stocks as of April 1, 1970, included 1,277 million pounds of leaf tobacco under Government loan. This was 28 million more than a year ago. These loan stocks were divided as follows: flue-cured, 772.5 million pounds; burley, 469.9 million; fire-cured, 13.2 million; dark air-cured, 19.0 million; and cigar leaf, 2.7 million.

---

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See table in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by grower cooperatives, which are considered dealers for stocks-reporting purposes.

## CIGARETTE LEAF STOCKS

Flue-cured and Maryland down--burley and imported higher

Flue-cured stocks totaled 2,223 million pounds on April 1, 1970, a decline of 165 million pounds.

Holdings of burley were reported at 1,631 million pounds, up 23 million pounds chiefly due to a larger crop. The 594 million pound harvest was in stocks by April 1 with about 121 million being sold in January--March.

Maryland inventories were 54.4 million pounds for a decrease of 15.6 million. The 1969 crop of 30.6 million is now being sold.

Stocks of foreign-grown cigarette and smoking tobacco totaled 425.8 million pounds--17.6 million above last year.

## DARK TOBACCO STOCKS

All but one type at record lows for April 1

Fire-cured stocks reported at 96.4 million pounds this April 1 were 9.8 million below last year. Virginia fire-cured stocks were 13.1 million; Kentucky-Tennessee Eastern District, 68.3 million; and Western District, 15.1 million pounds.

3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.
